wired to existing headlights
work done by Aston Martin
Technician

Aston Martin V12-RS

This was the factory prototype bonnet of the original V12 Vantage Concept Car – note the vents are molded into the carbon fiber bonnet, later to be changed to inserts into an aluminum bonnet to reduce costs.

10

Aston Martin V12-RS Bonnet

I commissioned the original bonnet to be replicated – essentially the OEM Aston Martin part painted and installed by Vescio's Customizing almost \$10K total! Only one other Vantage in the USA has this bonnet!

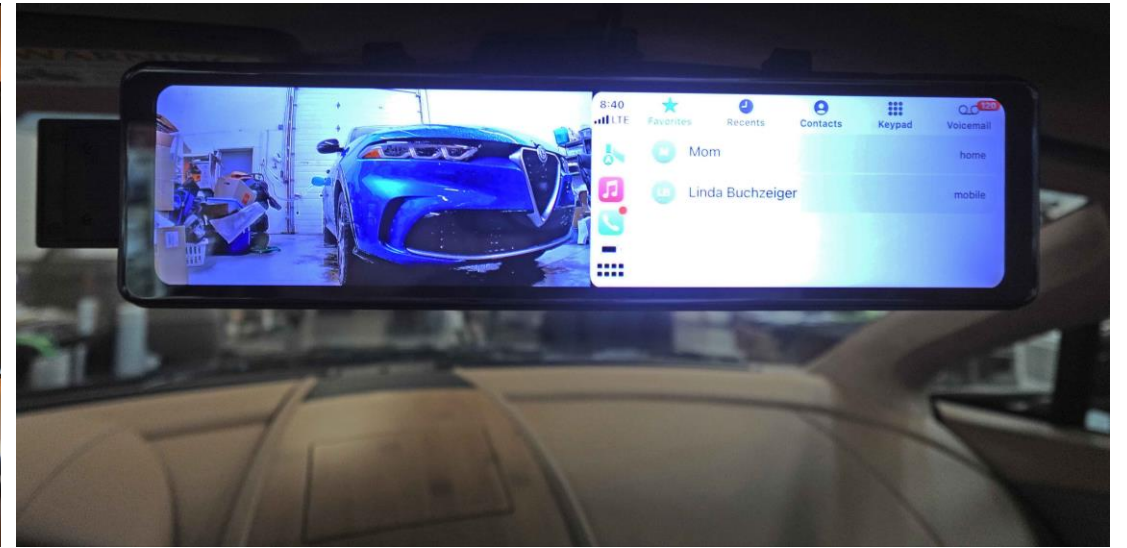

11

Full X-pel Front Clip

12

Paint Correction and Full
Ceramic (CilaJet alternative)
w/ 7 year Warranty by
PUR Detail
